RA-4

5B2-110089
Elvari™ Toilet Paper Dispenser with Shelf

Optional Electrocoat Finishes

Bradley offers an exclusive, proprietary electrocoat color process on the Elvari toilet paper dispenser models. Unlike powder coating, color is applied to the entire stainless steel part using a submersion process with electrically charged particles. This process results in a precise film thickness across all surfaces, allowing the grain of the stainless steel to show through.

Electrocoat provides complete coverage to the part and has environmental advantages such as no or low-VOC and HAPs (Hazardous Air Pollutants), heavy metal-free products, and minimum waste discharge. Bradley's electrocoat is durable and easy to clean as well as fingerprint, stain and corrosion resistant. A UV light stabilizer additive enhances resistance to weathering and color fade.

Products are performance tested for adhesion following ASTM D3359-22 and impact resistance following ASTM D2794.

Model (Must select one)
- (●) 5B2-110089 — Elvari Toilet Paper Dispenser

Standard Selections (Must select one from each category)

Mounting
- (●) 11 — Surface Mounted

Shelf
- (●) 89 — With Shelf
